TEAM PITZONE ARRANGEMENT

PITBOX

Every team gets 3x5 meters two floor PITBOX (the depth of flat surface can vary depending on particular place).

That includes:

- Pitbox - 1 piece;
- Electricity point. Overall electricity power for all the PITLANE shall be 80KW max. No more than 2KW per team is available.
- For every team disposal 10m² space with roof on the second floor is available.
- Free tickets for team guest place to the pitzone - 5 pieces, with possibility to buy more. Further information - www.racing.lt
- Every team gets a possibility for the advertisement tents on the Pitbox (see next slides for more information)
- Any advertising materials on the Pit box or pavilions can not be higher then 1,2 m above the fixing point and must be coordinated with the Organizer

Standart team Pitbox 2nd floor looks like this:

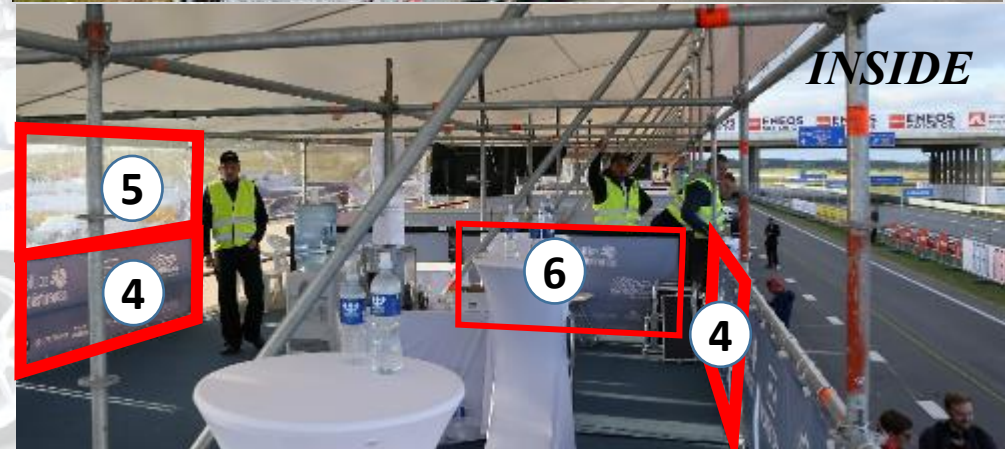

We highly recommend the teams to arrange the Pitbox by themselves.

INFORMATION ABOUT TENTS

- POSSIBILITIES:

1. 1 piece of 2960x890mm tent in front of the pitlane is a must. . There must be team name, drivers, starting number, represented country on it.; (MANDATORY)
2. 1 piece PIT outside (2960x890mm) (optional);
3. 1 piece PIT outside from the backside (2980x1910 mm) (optional). That side teams are entering the Pits so we suggest to keep it in mind and make it with the special entrance (zipper, buttons etc.);
4. 2 pieces PIT inside on II floor 2960x890mm (optional);
5. 1 piece PIT 2nd floor transparent, guarding from wind and rain (2960x890mm) (optional);
6. Fence (up to 1m height), guarding your zone from the other visitors (can be with your advertisement).
